

I ask you to prevent the LPFM stations to take priority over FM translators. When I am traveling in remote areas of Colorado, and other states, I cannot receive KLOVE Radio station without these translators. KLOVE radio is a tremendous asset to any community it is heard in, providing a unique style of listening not provided by mainstream music stations.

If Klove radio is displaced by the new LPFM stations, I, and others, would lose a valuable and enjoyable radio station. Please do NOT let these LPFM stations take priority over existing FM translators serving remote locations.

Thank You,

Marc Rea
